

## **The Launch of New York Chapter for Parents**

Monday, September 29, 2014

6:30pm – 8:00pm

### **Beekman Public Library**

11 Town Center Boulevard

Hopewell Junction, NY 12533

**Contact:** Rick Gabrielly [rickgabrielly@gmail.com](mailto:rickgabrielly@gmail.com) as seating is limited.

On Monday September 29, 2014, Ablechild.org will be holding an informal gathering for parents, educational professionals and anyone interested in uncovering the gifts in today's school-aged children.

Our mission is to provide informed consent, as it relates to psychiatric labeling and psychiatric drugs, to parents and students in every school in America.

### **GET HATCHED!**

Come and learn proven, natural ways to uncover your child's gifts in a changing educational system.

Join Ablechild.org as we celebrate a brighter future for our children at our first New York Chapter meeting.

Come and meet our excited, enthusiastic team at the Beekman Public Library at 6:30pm, and learn more about the 14-year journey that two local Mothers took to protect their young sons from the perils of psychiatric labeling in their schools.

You'll learn how to use The Hatch Amendment to opt-out of unwanted testing and you'll discover myriad ways to cultivate your child's greatest strengths with the support of a vibrant, national community of educated, committed supporters. Gather insights regarding our legislative efforts at both the state and federal levels.

You'll meet people just like you who care enough to educate and motivate you while stimulating the conversation in a forward direction.

We'll have some coffee, tea, water and some goodies, such as Natural News tote bags, Ablechild logo merchandise and educational literature, and awesome giveaways for new members while supplies last.

Ablechild.org is a nationally recognized 501 (c) 3 non-profit organization.

**Show your support by sponsoring our next community event!**

*This public New York event is part of Ablechild's Informed Consent Awareness outreach to parents and celebrates the marking of 44 years since the "Right to Privacy" hearings held on September 29, 1970, on the Federal government's involvement in the Use of Behavioral Modification Drugs on Grammar School Children.*
